SANTA

Intro to "Jingle Bell Rock" by Bobby Helms plays

Open on Santa's Workshop, Elves are hustling to make toys.

HOLLY

Sheesh Joy and Bernard, these toy deadlines keep getting earlier each year. Why does Santa have such a huge peppermint stick up his ass??

BERNARD

Shhhh keep it down Holly or he'll drop our hot cocoa ration again!

JOY

I swear he hasn't been the same since he started using Ozempic!

SANTA emerges from offstage

SANTA

HO HO HO...how are my favorite little elves doing today?

HOLLY AND BERNARD AND JOY

Hiiii Santa.

JOY

We could really use a hot cocoa break...

HOLLY

Yeah Santa, my carpelf tunnel is really acting up today.

SANTA

You guys know my rule...NO breaks until quotas are met! You think I let Rudy and the others play their little reindeer games when we're flying through rugged terrains like... Northwest Indiana?? Back to work before I send your asses down the chimney to Gary!

SANTA proceeds to storm off stage

BERNARD

What a fuckin' ass hole. I'm glad he's been away so much. Wonder where he goes.

JOY

I heard from Donner and Dasher that he's been scouting factories down south. They say he's planning to outsource all toy manufacturing to Mexico!

HOLLY

What?! But they don't even have snow in Mexico!

BERNARD

Well...they might have a different kind of snow Santa likes...

JOY

...And it packs better too.

HOLLY

Like...for snowball fights and stuff?

BERNARD AND JOY

(looking at each other)

Yeahhhhh

HOLLY

We need to stop this guys or else he's gonna end up like that bastard Jeff Bezos!

BERNARD

Well...I think we should try and form a union. You guys know how I've been on Jimmy Hoffa lore ElfTok lately...

JOY

Oh is that why you keep sending me Teamsters thirst traps? ...It's a great idea though, we can ask Comet and Cupid to join too.

HOLLY

Ohhh screw them we just need Rudy on our side. He's like the Cesar Chavez of the North Pole.

JOY

True, he was the one who told Santa that he might be lactose intolerant...

HOLLY

Yeah, and we saw how that worked out...

SANTA enters again, loudly crop-dusting (fart noises) as he makes his entrance. He is now wearing a Speedo.

BERNARD

(under his breath, dying from the ensuing stench)

Oh god he must've switched from Oat Milk to 2% again!

SANTA

(wearing a skimpy Speedo, aggressively sniffing/grabbing his nose)

So...do you guys think I could pull off a Speedo?

BERNARD AND HOLLY AND JOY

(still recovering from the crop dust)

Oh of course Santa you're such a stud! That Ozempic is really working!!

JOY

But why would you need a Speedo up here at the North Pole?

SANTA

Well Mrs. C and I are looking at a few, uh, timeshares down in Cancun. Now if you'll excuse me, I need to check on Vixen...I think that bastard is trying to watch Baby Reindeer again.

SANTA proceeds to storm off stage

BERNARD

You better not snitch that I'm letting Vixen use our Netflix password.

HOLLY

Quit being so -elfish right now, Bernard there's bigger things to worry about. Mexico? *Mexico?* That jingle bell bitch has gone too far this time!

BERNARD

Frankly I'm more curious on how fits his yule log and jingle bells into that Speedo...

JOY

Gross Bernard!

BERNARD

All I'm saying is...I think his nutcracker would put Tchaikovsky's to shame...You know it's true! (notices Holly has stopped working) Holly?

-

HOLLY

I can't do it anymore...

SANTA enters again

SANTA

Ho Ho Hope you guys are getting work done because I'm hearing a lot of-

HOLLY
